Location: 3290 Monier Circle, Suite 100, Rancho Cordova, CA 95742
Phone: 916-631-8071

RockSport Shocks for JK Wranglers

Specifically tuned RockSport Long-travel shocks are an affordable, yet performance valved, shock for MetalCloak JK suspensions. RockSport shocks are specifically tuned to work with MetalCloak True Dual-Rate Coils and are ONLY distributed through MetalCloak. With a compressed length of 15.9" and an extended length of 27.3" the RockSport shocks provide over an inch more travel than the comparable, more expensive, mono-tube type shocks! Get the travel needed for your Jeep in a durable package comprising of Double Welded Bushing Eyes, Oversized 18mm chromed shafts, Oversized Mounting Stems, natural rubber isolators, charged with fade resistant Nitrogen gas, and protected with a Shaft Length Stone Guard. The refined RockSport Shocks provide compression and dampening for a stable, yet compliant daily driving experience and perform great in situations where Long Travel articulation is needed, keeping the tires planted on the ground. Get great performance, backed by a name you can trust at an entry level price. MetalCloak, it's your Jeep Only Better. Information: MetalCloak, 916-631-8071, www.MetalCloak.com
