MetalCloak's TJ/LJ Jeep Wrangler "Crawler" Rear Bumper & Tire Carrier System

MetalCloak presents a high clearance rear bumper with an integrated "shake/rattle" free tire carrier. The feature rich TJ/LJ Jeep Wrangler CRAWLER Bumper with tire carrier is designed to provide great looks and optimal strength. With a simple and clean looking design MetalCloak's TJ/LJ Jeep Wrangler "Crawler" Rear Bumper & Tire Carrier System is made of 3/16 steel plate and finished with MetalCloak's Signature Premium Black Texture Powder Coat and looks great with any style Jeep build. The bumper's angled cut away ends provide departure clearance and the built in tow hitch is there when a secure recovery point is needed. The spare tire carrier smoothly operates on two oversized tapered needle bearings and locks securely shut with a two stage closure latch; the spare tire (ranging from 33" - 40") rests on the integrated skid-plate shelf- exclusively found on the MetalCloak "Crawler" Rear Bumper. For the best way to mount your oversized spare tire, great looks and with off-road ready feature there is no better option than the feature packed MetalCloak "Crawler" Rear Bumper & Tire Carrier System... Metalcloak, It's Your Jeep, Only Better. Information: MetalCloak, 916-631-8071, www.MetalCloak.com

*Hi- Lift Jack and Universal Accessory Mount are available for added carrying capacity
