Phone: 916-631-8071

MetalCloak Wrangler Hardline Flip-Step 2dr & 4dr

The MetalCloak Wrangler Hardline Flip-Step is a tubeless, 11-gauge steel bolt-on step design that works with the MetalCloak Rocker Base. Our Hardline Flip Step provides multi-function; able to be changed from an easy to reach step for entering your Jeep to a high clearance rub rail with a few twists of a wrench. In step mode the secondary piece is attached providing a “grip plate” that gives superior traction for entering or exiting the Jeep. Step is designed to drain water and mud and works great even when the conditions aren’t.

“MetalCloak... It’s your Jeep Only Better.”
