MetalCloak's Overland Edition Rocker Plate & Overland Flip-Step Provides Protection & Makes Getting in and out of your lifted JK Easy

Metalcloak adds functionality and protection with the NEW updated release of the popular "step style rocker"; the Overland Edition Rocker Plate with optional Overland Flip-Step for JK Wrangler 2 and 4 door models. Rocker protection for the Jeep JK is made better by providing a comfortable step to use when getting in or out of your Jeep. The Overland Edition Rocker offers boat-side style protection plates that provide high clearance and incredible durability, made from the 3/16 cold rolled steel and can be used with or without the Flip-Step. The bolt-on Overland Step rub rail is 1 ½ DOM tube welded and trussed with 3/16th steel plate and provides a secure step for front and rear passenger while providing additional protection from trail damage. The Flip-Step can be positioned as a high clearance platform or a lower hanging step for assistance getting into lifted Jeeps...
