MetalCloak's Rear ExoSkin™, Overland Edition - Adding Style, Strength & Safety to Your Jeep Wrangler JK

MetalCloak combines strength, style, and innovation with the universal fit Rear ExoSkin™, Overland Edition for both the 2 and 4 door model Jeep Wrangler JK. Designed to work with stock fenders and most aftermarket fender systems, the package includes MetalCloak's unique ExoSkin system, adding a second skin of strength to the weak JK body. Manufactured from 11 gauge cold rolled steel and laser cut for a perfect fit, Metalcloak takes the guess work out of installation with a full size metal drill template. The ExoSkin's are finished in MetalCloak's signature black texture powder coat and are designed to work with the Exo-Corner™ LED tail light kit. Protect your investment with the MetalCloak Rear ExoSkin, Overland Edition... Metalcloak, It's Your Jeep, Only Better. Information: MetalCloak, 916-631-8071, www.MetalCloak.com
