MetalCloak's JK Wrangler Unlimited Center Seat Support. Makes Sitting in the Center of the Back Seat Comfortable.

MetalCloak proves to improve function and comfort at an incredible value with the Center Seat Support for JK Wrangler Unlimited 4dr. Unfortunately, Jeep chose not to provide a support for the middle position of the back seat; if you've had the unfortunate experience of sitting there, then you know that you just sink.

MetalCloak's Center Seat Support provides the needed bracing for the unsupported rear seat section providing a much higher level of comfort. Made of laser cut 1/8" T6 aluminum plate for light weight and strength. MetalCloak Center support; the support slides in place and attaches easily in just minutes. Give your Jeep Wrangler JK 4dr Unlimited the comfort it should have... MetalCloak, It's Your Jeep, Only Better. Information: MetalCloak, 916-631-8071, www.MetalCloak.com
