Phone: 916-760-4554

MetalCloak's JK Wrangler Shock Relocation & Clearance Kit

MetalCloak introduces an innovative solution to re-fit the factory stock rear shocks on up to a 2 inch lift. The CNC machined gold zinc plated steel relocation shock brackets provide an easy way to adapt factory rear stock shocks on up to a 2" basic lift kit without the additional cost of replacing the rear stock shocks! Gain 3" of ground clearance for your shock mounts and reuse you factory shocks. With the correct bump-stops installed this replacement bracket is a great way to improve downward travel on many aftermarket shocks too! MetalCloak, it's Your Jeep, Only Better.
