MetalCloaks "Game Changer" Jeep Wrangler JK Suspension

MetalCloak's "Game Changer" 2.5", 3.5", 4.5" Suspension Systems for Jeep JK-Wrangler

Provides 13.5"+ of true wheel travel with more articulation than typical 6" long arm kits.

MetalCloak's signature 6pak™ shocks (15" front and 13" rear) provide the longest travel relative to a compressed length for any off-road shock. The True Dual Rate Coils provide a smooth ride and amazing stability even under heavy loads. MetalCloak's Duroflex™ Joints are the first of their kind with vibration dampening, high-misalignment joint (up to 34°) that puts an unprecedented touch on ride quality. This system is complete with front and rear Durotrak™ track bars. Change your suspension and change the game; MetalCloak, it's your jeep only better.
