MetalCloak's Overland Touring 2.5" lift kit

Start the adventure with MetalCloak's Overland Touring 2.5" lift kit for the JK Wrangler. Designed to get your Jeep ready for touring on a budget by reusing as many of the factory parts as possible. Featuring MetalCloak's True Dual-rate coils that provide 2.5 inches of lift and assure a fantastic ride on and off the road. Adjustable bump-stops for the front and rear allow fine tuning of wheel travel for different tire sizes. Add-on Shock extensions are included to keep upgrade costs at a minimum by reusing factory shocks. MetalCloak's Control Arm Relocation Drop Bracket Kit adds value by reusing the factory control arms and correcting the caster; brackets are made of 7gauge steel then welded into one piece are the most durable drop brackets available. Extended stainless steel brake lines and brake extension brackets and all hardware needed for installation included. Get the most out of your factory suspension parts with MetalCloak; it's your Jeep Only Better. Information: MetalCloak, 916-631-8071, www.MetalCloak.com
