JK Wrangler EVAP Canister Concealment Kit

Our MetalCloak JK Evap Canister Concealment Kit places the canister up and over and into the cavity that is protected by the rear axle. Laser cut and CNC formed from Gold Zink plated steel and comes with additional hose and hardware. The complete relocation kit looks great and fits like it is original equipment; this bracket has been engineered and tested to work correctly with the Jeeps sensors for worry free use. Keep your evap canister protected with MetalCloak, It's Your Jeep, Only Better.
