Phone: 916-631-8071

## MetalCloak's 3.5 Duroflex Cherokee XJ Suspension System

MetalCloak brings the undisputed success of the Duroflex Joint to Jeep Cherokee, XJ, owners with the 3.5" Duroflex Suspension System. The patent pending Duroflex joint offers the vibration dampening of a rubber bushing with the high-misalignment of a ball joint – all housed in adjustable chromoly control arms. Add the industry's leading Dual Rate coil springs with the longest extended length and you have the ultimate on and off-road set up. Adjustable Front Bump Stop System provides the option of 1" to 4" in Bump Stop for proper tire clearance. System includes everything you need including steel-braided, Kevlar-lined front & rear brake lines, solid chromoly front track-bar, sway bar disconnects, replacement shackle bushings, rear bump stop kit, grade-8 u-bolts, complete replacement rear leaf packs, and all the hardware needed for installation. *\*This system will require longer shocks of your choice.* Experience the MetalCloak Duroflex Suspension difference. MetalCloak, It's Your Jeep, Only Better. MetalCloak, 916-631-8071, [www.MetalCloak.com](http://www.MetalCloak.com)
