MetalCloak's Duroflex™ Dodge Control Arms

All new for Full size Dodge trucks from MetalCloak, the Duroflex™ Control arm package. Featuring self-centering Duroflex™ composite bushings that provide a significant ride quality improvement over stock bushings and up to 76 degrees of misalignment.

Lower DOM control arms have strategic bends that provide added tire clearance while the upper control arms are made for ultimate strength using SOLID chromoly material. Duroflex™ bushings are fitted on both ends of the control arms and are known for proven durability and the smoothest ride available for your Dodge Ram truck. MetalCloak takes the guess work out and engineered these in corrected lengths designated for lifted or leveling applications. Control arms are treated with Gold Zinc Chromate for the best defense against the elements for a long lasting durable finish. MetalCloak Dodge control arms are the perfect upgrade when modifying or upgrading the suspension on your Dodge Ram Truck. MetalCloak, it's your Dodge only better. MetalCloak, 916-631-8071, www.MetalCloak.com
